## Instructions for Completion

Before embarking on completing this form, please note the following important notes:

1. **Instructions for submitting this form** will be shared during the webinar. You can sign-up to participate in the webinar by going on CFYE's website.
2. **Less is more** - Strictly follow the word limit specified for each question.
3. Write concisely using **clear language** and plain English.
4. Try **not to use acronyms** - if you need to, make sure to spell them out the first time.
5. Clearly **show how your project aligns** with and advances CFYE's guiding principles (see further reading).
6. **Cite evidence** wherever possible to illustrate why your project is needed.
7. Cite evidence to **show that your approach has worked before**, by including examples of your consortium's *previous experience* successfully implementing similar approaches.
8. Be **clear in outlining your gender inclusion approach**, explaining how you will go beyond gender sensitivity to deliver gender-targeted and/or gender-transformative approaches.
9. Read carefully the provided **guidelines** and refer to them throughout the application process.
10. Where essential, you may **use figures or diagrams/photos** to make your point. These can be attached separately.
11. Any actual, potential or perceived **conflict of interest** and the suggested mitigation plan should be declared to the Challenge Fund for Youth Employment at the point of submission of this Concept.
12. You may be contacted by the Challenge Fund team to provide further information so please reconfirm that the contact email address entered in the form is correct.
13. The Challenge Fund for Youth Employment (CFYE) reserves the right to;
  - a. Accept or reject any concept, and to annul the call for concept process thereby rejecting all submissions at any time prior to the award of a contract at its sole discretion;
  - b. Reject any application which, in the programme's opinion, gives rise, or could potentially give rise to, a conflict of interest;
  - c. Cancel or modify the process at any time whether before or after the deadline for submission;
  - d. Reject any submission that does not comply with the content requirements as outlined in this document; and
  - e. Adjust the scope and parameters of the call for concepts and / or the evaluation criteria at any time before the deadline for submission.
14. A concept, proposal or any relationship between the parties will not be deemed as accepted or concluded unless and until a contract is signed between the proposed Implementing Partner and Enclude BV (Palladium Europe).
15. The **deadline for submitting** a concept note for this call is August 31<sup>st</sup>. Late submissions will not be accepted.

## CFYE Guiding Principles

**Actively targeting women.** The Challenge Fund for Youth Employment makes a deliberate point of creating equal opportunities for young women in the job market.

**The Role of Private Sector.** We actively welcome partnerships and consortium responses to this challenge. While we welcome ideas and responses from any organisation, we are looking for market-based solutions so there is an expectation that all projects will involve at least one partner from the private sector.

**Additionality.** Given the emphasis on market-based solutions, we will only consider working with Implementing Partners presenting ideas that would not be possible without support from the Fund. We are not in the business of funding existing operations, or 'business as usual'.

**Youth Engagement.** Actively involving youth, and especially young women, is a pre-requisite for being considered as an Implementing Partner of the Fund.

**Taking an integrated approach.** Matching supply and demand is a critical element of the Fund's design. Each project should have a clear, integrated matching component.

**Sustainability (long term prospects).** As part of the design of each project/investment, prospective Implementing Partners will be required to demonstrate how their initiatives will become independent of external grant funding as part of their business cases and proposals.

**Decent Work:** We are not simply talking about putting youth to work; all CFYE projects must create opportunities for youth to benefit from decent employment. ILO refers to decent employment as work that "is productive and delivers a fair income, security in the workplace and social protection for families, prospects for personal development and social integration, freedom for people to express their concerns, organize and participate in the decisions that affect their lives and equality of opportunity and treatment for all women and men

**9. Project Pitch**  
In 100 words or less, describe why should CFYE invest in your project?

[Response text here]

**10. Executive Summary of Proposed Project**  
Provide a summary of the proposed project. Identify what challenges will it address, what's the proposed solution and what activities will you deliver through the consortium?  
*(Limit your response to a maximum of 500 words.)*

[Response text here]

**11. Challenge that your project will focus on**  
Explain why your project is needed. What are the specific challenges that it solves? Identify the barriers that prevent this problem from being solved.  
*(Limit your response to a maximum of 300 words. Include a short overview of the delivery context. Use evidence (research, data) to illustrate the point you are making)*

[Response text here]

<b>12. What is the total number of jobs that your proposed project will generate/support through this project?</b>	[Response text here]
--	----------------------

<b>13. Of this total number of jobs, how many are aimed for young women?</b>	[Response text here]
--	----------------------

**14. Approach and Potential Impact**  
Provide an overview of your project's approach. How will your proposed project enable young people, especially women, to access new or better employment opportunities?  
Your responses should briefly describe the project's Theory of Change, demonstrating clear pathways to improved or new employment for young people, especially women. It should also exhibit alignment with the challenges identified in the call for solutions.  
*(Limit your response to a maximum of 500 words. Where relevant, you can use data and infographics to illustrate the point you are making)*

[Response text here]

**15. Project Activities:**

What are the specific activities that your project will be undertaking to achieve the above objectives? Which of these activities will be undertaken by consortium partners? Clearly outline how the expected results will be achieved within the Challenge Fund timeframe through these activities.

*(Limit your response to a maximum of 500 words)*

[Response text here]

**16. Quantifying Potential Impact (1):**

What's the number of employment opportunities supported by your proposed project in each of the four target categories of CFYE?

*(Refer to the description and details of four categories i.e. Match, Create, Improve and Sustain, as given on CFYE website.)*

	Match	Create	Improve	Sustain
Male				
Female				
Total				

**17. Quantifying Potential Impact (2):**

What's the number of employment opportunities supported by your proposed project in the following two categories?

	Wage Earning	Self-Employed
Male		
Female		
Total		

**18. Quantifying Potential Impact (3)**

What are the expected average monthly income levels associated with the jobs that your project will support?

*(Specify your response in EGP)*

	Wage Earning	Self-Employed
--	--------------	---------------

Male		
Female		

### 19. Impact on Women

What main barriers to employment do you see for women and how will you target and support women to overcome those barriers through this project?

*(Limit your response to a maximum of 500 words. Responses should demonstrate consideration of the specific barriers faced by young women in finding and retaining decent employment (in the country, in the context, in the sector, etc.) and propose a strategy to overcome these - possibly including the voice of women and female staff).*

[Response text here]

### 20. Youth Engagement

What strategies will you use to ensure youth are able to overcome barriers to employment, and achieve what they aspire to in their lives? Explain how your solution links to the aspirations of the youth whom you are targeting.

*(Limit your response to a maximum of 500 words. Responses should describe key barriers that youth are facing and an explanation on how they have ensured youth voice and aspirations are reflected by active youth participation in the design of their project.)*

[Response text here]

### 21. Resilient Futures

Will your project actively aim to enhance resilience of your target group? If yes, how?

*(Limit your response to a maximum of 500 words. Responses should acknowledge future uncertainties, sudden shocks and unexpected changes that may impact the nature and relevance of the employment that they are creating, improving, matching or sustaining. Briefly describe your approach to enable the target group to successfully cope with this.)*

[Response text here]

### 22. Organisational and Consortium Capability

Demonstrate your consortium's capacity to implement this project, citing clear examples of similar initiatives the lead organisation and/or other consortium members have launched.

*(Limit your response to a maximum of 500 words. Responses should demonstrate a clear link between the core business operations and proposed project. Where available, indicate long-term buy-in for this project and CFYE Fund from senior management of your organisation(s) and/or the company board. Responses should also demonstrate that there is sufficient internal capacity to deliver the project and that project partners are complementary. Specific attention should be paid to capacity and capabilities related to the specifics of the applicable window.)*

[Response text here]

**23. Anticipated Contribution of the Challenge Fund:**

In your self-assessment, how does CFYE's support add value to your proposed project?

- Without CFYE support, our project would not be likely to progress at all for different reasons e.g. because it is too high-risk, there is no established commercial case or no additional funding is available.
- It is likely that with CFYE support, the project will be better designed, proceed more quickly, or reach more young people than it otherwise would have.
- CFYE support will likely make it easier to progress the project, although it will be difficult to demonstrate how the project resulted in specific identifiable change compared to what would have happened.
- There would be no significant difference and the project would proceed as originally envisioned, with or without CFYE support.

**24. What kind of support would you need or expect from CFYE?**

- Technical Assistance
- Monetary Investment
- Combination of both Technical Assistance and Monetary Investment

**25. Can you give a demonstrate with specific examples and data about how CFYE's support will help you deliver your project's proposed activities? What other avenues of monetary and/or technical assistance have you explored?**

*(Limit your response to a maximum of 500 words.)*

[Response text here]
